## Detachment Boundaries

# Annual Performance Plan

- The APP is used at the detachment level to assist in planning and to bring policing activities in line with local concerns. It provides a mechanism by which we can report on progress, or obstacles encountered to the Mayors, Councils, and communities we serve.
- The APP is the “ROAD MAP” for the detachment activities throughout the year running from April 1 to March 31.
- The APP has a quarterly reporting feature that is completed and reviewed by the Detachment and Southern Alberta District Management Teams.
- The APP also has an internal Unit Level Quality Assurance (ULQA) component that allows Senior Managers to assess internal operations and improve service delivery.

# Annual Performance Plan

- Each year in preparation to develop and build a new APP, the Detachment Management Team (DMT) conducts external/internal inquiries and information sessions.
- Input from these sessions will help us determine what the policing priorities should be for the upcoming year.
- Tonight we are hosting this Community Consultation Session in Coaldale with support from your Mayor & Counsel and Town staff.
- We hope to get feedback from all in attendance to understand what Policing Priorities are important to this community.
